

M5120VS Medium duty Pressure Sealer

Pressure sealing is the process of folding and sealing single page continuous or cut sheet forms to produce secure, confidential documents that are ready for issue.

Pressure sealing eliminates the need for enveloping and insertion and dramatically improves the efficiency of your document processing.

WE INNOVATE.

And our solutions
break new ground.

M5120VS

Medium duty Pressure Sealer

Forms are printed to your specification, with a range of fold options to suit your software and application requirements. The M5120VS Pressure Sealer is a medium volume machine capable of processing up to 12,000 documents an hour. It has a 500 capacity sheet feeder and is supplied complete with a vertical stacker, cabinet stand and dust cover.
